EXPERIENCE

Devbridge
Product Designer

↗ devbridge.com

2017 – 2019
Chicago, United States

2019 – 2021
London, United Kingdom

4-year experience in designing complex digital products for the web and mobile. I contributed to the designs of 10+ products while working in a fast-paced, result-oriented software consultancy that partners with Fortune 1000 companies to ship mission-critical software.

A FEW OF OUR PROJECTS

1. Leading global provider of audiovisual, event technology, staging and production services presented an opportunity to combine multiple outdated systems into a single ERP platform.

- Conducted user research in hotels and warehouses of Northern America.
- Built team alignment and stakeholder confidence via user tested prototypes.
- Contributed to increased profitability by designing smarter equipment selections and better visibility into labour costs.
- Led the design efforts of audiovisual equipment e-commerce platform.
